

# BUILDING POWER IN ONTARIO LET'S MAKE A DIFFERENCE!

On September 20th, join Ralph Torrie, Research Director for Corporate Knights, in a provocative discussion about the “Powering Ontario’s Growth” plan of the Ford government. The plan which calls for massive fossil gas & nuclear expansion and locks Ontario into a costly energy future out of step with most of the world.

Together, we will learn about alternative strategies and how we can join a campaign for a renewable energy future in Ontario.
